Map created by Elan Alford.

Rare plant hotspots are derived from San Mateo and Santa Clara county CNDDDB records.

Disclaimer: CNDDDB version 02/2017. Please Note: The hotspots occurrences shown on this map were derived from known locations of species occurrences as of the date of this version. There may be additional occurrences or additional species within this area which have not yet been surveyed and/or mapped. Lack of information in the CNDDDB about a species or an area can never be used as proof that no special status species occur in an area.
